Program will be held at the Edgefield County Extension Office.

The Edgefield, Aiken, McCormick, Saluda, Greenwood and Abbeville Extension Offices will be offering a four class series on the basics of forage establishment and management. The classes will emphasize soil fertility, forage selection, poisonous plants, livestock nutritional requirements and grazing systems. The classes will be taught by Area Agents, County Agents and Specialists from Clemson University. The cost of the course will be $60 (covers materials, printing and breaks). Must RSVP with payment by April 24th.
